Career Objective

Final-year Computer Science student with a strong foundation in Python, SQL and object-oriented programming. Experienced in developing AI-based applications using RAG systems and computer vision techniques. Seeking an opportunity to contribute to building scalable, efficient, and intelligent software solutions.

Education

B.Tech in Computer Science & Engineering

SCMS School of Engineering and Technology, Ernakulam

CGPA: 8.84

Higher Secondary

St. Francis HSS for Girls, Aluva

Skills

Technical

- Programming Languages: Python, SQL, Java
- Core Concepts: OOP, DBMS
- Tools/Technologies: Git, LangChain, TensorFlow, OpenCV

Soft Skills

- Discipline
- Team Collaboration
- Adaptability

Experience

Internship

- **Intern – AI, TenzoTech , Ernakulam, Kerala** 8 May 2023 – 22 May 2023
Gained hands-on experience working with real-world AI tools and applications.
- **Intern – Development, OHO Solutions, Vyttila, Kerala** 11 June 2025 – 20 June 2025
Developed an emotion detection web application using DeepFace, OpenCV.

Projects

- **CyberTrace - Explainable RAG based Cybersecurity Chatbot** 15 July 2025 – 25 March 2026
 - Developed a RAG-based system using LLM and vector database for cybersecurity queries
 - Implemented semantic search with 768-dimensional embeddings.
 - Integrated a malware detection module and ensured explainable, context-aware responses
- **Emotion Detection Website**
 - Built a web application to detect user emotions using DeepFace.
 - Technologies: Python, OpenCV, DeepFace, HTML, CSS
- **Sign Language Conversion**
 - Developed a real-time sign language recognition system converting hand gestures to text.
 - Technologies: Python, MediaPipe, TensorFlow
