Career Objective

Final-year Computer Science student with a strong foundation in Python and SQL, seeking an entry-level Cloud Engineer role to build strong fundamentals in cloud infrastructure, deployment, and security while continuously learning and contributing to real-world projects.

Education

- **B.Tech in Computer Science & Engineering**
SCMS School of Engineering and Technology, Ernakulam
- **Higher Secondary**
St. Francis HSS for girls, Aluva

Skills

Technical

- C, Python
- SQL
- HTML,CSS,JS
- React (Basics – Currently Learning)
- Mediapipe, TensorFlow, LangChain

Soft Skills

- Discipline
- Willingness to learn
- Team player
- Adaptability

Experience

Internship

- **Intern – AI, TenzoTech , Ernakulam, Kerala** 8 May 2023 – 22 May 2023
Gained hands-on experience working with real-world AI tools and applications.
- **Intern – Development, OHO Solutions, Vyttila, Kerala** 11 June 2025 – 20 June 2025
Developed an emotion detection web application using HTML, CSS, JS and Python

Projects

- **Emotion Detection Website**
 - Built a web application to detect user emotions using DeepFace.
 - Technologies: Python, OpenCV, DeepFace, HTML, CSS
- **Sign Language Conversion**
 - Developed a real-time sign language recognition system converting hand gestures to text.
 - Technologies: MediaPipe, TensorFlow, Python
- **CyberTrace - Explainable RAG based Cybersecurity Chatbot** 15 July 2025 – present
 - Built a cybersecurity chatbot using LLMs and Retrieval-Augmented Generation (RAG).
 - Used LangChain and vector databases to deliver accurate threat intelligence.

Certifications

- Infosys springboard - Internet of Things
- AWS Training & Certification – Introduction to Generative AI: Art of the Possible
- Simplilearn SkillUp – Introduction to Cloud Computing

Extracurricular

- Volunteer at Kerala Innovation Festival 2025
- ASCENDIO volunteer
- GANITHAM teaching program
- Participant in hackathons conducted by Tinkerhub
